CERTIFICATION = COMPETITIVE EDGE

In business getting ahead and staying ahead can be challenging. Professional certifications enhance your employees' credentials and give you or your company an *edge* over competitors. Helping company's employees get certified in Project Management and Management level IT Security is what **Off Peak Training** does.

Our course offerings concentrate on training for all levels of project managers. We can prepare a seasoned project manager for the PMP® exam or for those with less experience, the CAPM®.

Today information assurance and security is a top goal for government. Federal agencies must engage experts with the proper certifications. **Off Peak Training** can help you or your company meet the demand for certified professionals.

And for all **Off Peak Training** courses, we work with you to determine the exact course content that meets your need.
